

Handgun Frame

Workpiece information

Industry	Firearms
Part name	Handgun Frame
Material type	Stainless Steel
Cutting process	Deburring & polishing of edges

Processing conditions

Tool	XEBEC™ Brush End Type (A31-EB06M)
Processing detail	Fine surface finishing and polishing of milled surfaces; Deburring and polishing of edges
Spindle Speed	8000 RPM
Feed Rate	40 IPM

Before

After

Can be used in cnc machines, robotic or handheld devices.

Tool XEBEC Brush™ End Type

Ideal for cutter-mark removal, polishing and finishing of parts with narrow features.
